## Section A: Faculty Section

### 1. General provisions

#### Article 1.1 Applicability of the Regulations

1. These Regulations apply to anyone enrolled for the programme, irrespective of the academic year in which the student was first enrolled for the programme. These Regulations apply to the teaching and examinations for the following Master’s degree programmes:

   - Artificial Intelligence
   - Bioinformatics and System Biology
   - Biomedical Sciences
   - Biomolecular Sciences
   - Business Analytics
   - Computer Science
   - Drug Discovery and Safety
   - Earth Sciences
   - Ecology
   - Environment and Resource Management
   - Global Health (research)
   - Health Sciences
   - Hydrology
   - Information Sciences
   - Management, Policy Analysis and Entrepreneurship in the Health and Life Sciences
   - Mathematics
   - Medical Natural Sciences
   - Neurosciences (research)
   - Parallel and Distributed Computer Systems
   - Science Business and Innovation
   - Stochastics and Financial Mathematics

2. These Regulations enter into force with effect from 1 September 2019.

3. An amendment to the Teaching and Examination Regulations is only permitted to concern an academic year already in progress if this does not demonstrably damage the interests of students.

#### Article 1.2 Definitions

The following definitions are used in these Regulations (in alphabetical order):

- **a. academic year**: the period beginning on 1 September and ending on 31 August of the following calendar year;
- **b. CvB**: the Executive Board of Vrije Universiteit Amsterdam.
- **c. Double degree programme**: joint programme in the context of cooperation between Vrije Universiteit Amsterdam and the educational institution within and outside the EU, as to gain a double university degree; of the VU and the educational institution concerned; though not being the same as a ‘joint degree programme’ according to the art. 7.3c WHW;
- **d. EC (European Credit)**: an EC credit with a workload of 28 hours of study;
- **e. educational component**: a unit of study of the programme within the meaning of the WHW;
- **f. examination**: the final examination of the Master’s programme;
- **g. exemption**: Exemption from an examination/ practical/ fieldwork based on an earlier successfully completed examination, or knowledge / skills of a similar content, level and scope gained outside higher education;
- **h. FGV**: Faculty joint assembly – assembly of the faculty student council and faculty staff
2. Study programme structure

Article 2.1 Structure of academic year and educational components

1. The study programme will be offered in a year divided into two semesters.  
   Ordinance CvB, see appendix 3

2. Every semester consists of three consecutive periods of eight, eight and four weeks.  
   Ordinance CvB, see appendix 3
3. An educational component comprises 6 EC or a multiple thereof.  

4. By way of exception to paragraph 3, Section B may stipulate that a unit of study comprises 3 EC or a multiple thereof. The Faculty Board requests permission from the Executive Board.

Article 2.2 Refusal or termination of registration / (iudicium abeundi)

1. Pursuant to the provisions of Article 7.42a of the Act, the Faculty Board or the Examination Board may, in exceptional circumstances, request the Executive Board to terminate or refuse a student’s registration on a programme. This may be the case if the student’s conduct or statements demonstrate his or her unsuitability to work in the relevant field or discipline, or to take part in the programme’s practical training component.

2. If a student is suspected of being unsuitable as described in paragraph 1, the Examination Board or the Faculty Board will examine the case, and the student will be informed of this immediately. The Examination Board or the Faculty Board will only issue a recommendation after careful consideration of the interests involved and following a hearing with the student concerned.

3. Assessment and Examination

Article 3.1 Signing up for education and interim examinations

1. Every student must sign up to participate in the educational components of the programme, the examinations and resits. The procedure for signing up is described in an annex to the Student Charter.

2. Signing up may only take place in the designated periods.

3. If a student does not pass the examination and the resit of a component, he/ she is obliged to take the whole component again. This rule does not apply to practical exercises and programmes that make use of component marks that retain their validity. For further regulations see Section B of the programme involved.

Article 3.2 Type of examination

1. At the student’s request, the Examination Board may permit a different form of interim examination than that stipulated in the course catalogue. If applicable, more detailed regulations on this are included in the Rules and Guidelines for the Examination Board.

2. In an educational component is no longer offered in the academic year following its termination, at least one opportunity will be provided to sit the interim examination(s) or parts thereof and a transitional arrangement will be included in the programme-specific section for the subsequent period.

Article 3.3 Oral interim examinations

1. An oral assessment is public unless the Examinations Board on request determines otherwise.

2. An oral examination will be taken in the presence of a second examiner.

Article 3.4 Determining and announcing results

1. The examiner determines the result of a written interim examination as soon as possible, but at the latest within fifteen working days. By way of departure from that stipulated in the first clause, the marking deadline for theses, internships / work placements and final assignments is no longer than twenty working days. The examiner will then immediately ensure that the marks are registered and also ensures that the student is immediately notified of the mark, taking due account of the applicable confidentiality standards.
2. a. The examiner determines the result (i.e. mark) of an oral examination as soon as possible, though within one working day, after the examination has finished and informs the student accordingly. The third clause of the first paragraph applies.
b. The examiner determines the result of an interim examination no later than five working days before the next (interim) examination will be held.

3. In the case of alternative forms of oral or written examinations, the Examination Board determines in advance how and by what deadline the student will be informed of the results.

4. A student can submit a request for reassessment to the examiner. A request for reassessment does not affect the time period for lodging an appeal.

5. Together with the result of an examination, the student’s attention will also be drawn to their right to inspect the assessed work and have a post-examination discussion as stipulated in Art. 3.9, as well as his/her option to lodge a complaint before the Examination Board, and if necessary, to appeal to the Examinations Appeals Board (in Dutch: COBEX).

Article 3.5 Examination opportunities

1. a. Per academic year, two opportunities to take examinations per educational component will be offered.
b. The options for retaking practical components, work placements and theses are detailed in the relevant work placement manual, teaching regulations or graduation regulations.

2. The most recent mark will apply in the event of a resit. A retake is allowed for both passed and failed units of study.

3. The resit for a (partial) interim examination must not take place within ten working days of the announcement of the result of the (partial) examination being resat.

4. The Examination Board may allow a student an extra opportunity to sit an examination if that student:
   a) is lacking only those credits to qualify for his or her degree;
   b) has failed the examination during all the previously offered attempts, unless participation in an examination was not possible for compelling reasons.

The extra opportunity can only be offered if it concerns a written examination, a paper or a take home examination. This provision excludes the practical assignments and the Master’s thesis. Requests for an additional examination opportunity must be submitted to the Examination Board no later than 15 July. If necessary, the method of examination may deviate from the provisions in the study guide.

Article 3.6 Marks

1. Marks are given on a scale from 1 to 10 with no more than one decimal point.

2. The final marks are given in whole or half points.

3. Final marks between 5 and 6 will be rounded off to whole marks: up to 5.5 rounded down; from 5.5 rounded up. To pass a course, a 6 or higher is required.

In case the examination of a component consists of two or more parts, each of which are graded separately, the (weighted) mean of these marks (meaning: the final mark) must be rounded off using the following table:

<table>
<thead>
<tr>
<th>From</th>
<th>Up to</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>1,00</td>
<td>1,25</td>
<td>1</td>
</tr>
<tr>
<td>1,25</td>
<td>1,75</td>
<td>1,5</td>
</tr>
<tr>
<td>1,75</td>
<td>2,25</td>
<td>2</td>
</tr>
<tr>
<td>2,25</td>
<td>2,75</td>
<td>2,5</td>
</tr>
</tbody>
</table>
4. The Examination Board can allow to use symbols rather than numbers, such as: pass, fail, (unsatisfactory, good, VRS (exemption). In case a student does not take part in any (interim) examination, the examiner will register the mark ‘ns’ (c.q. no show).

---

**Article 3.7 Exemption**

1. At the written request of the student, the Examination Board may exempt the student from taking one or more examination components, if the student:
   a) has passed a course component of a university or higher professional education programme that is equivalent in terms of content and level;
   b) has demonstrated through his/her work and/or professional experience that he/she has sufficient knowledge and skills with regard to the relevant course component.
   The Examination Board will make a decision within six weeks after receiving the request.

2. The Master’s thesis, the final work placement (c.q. internship) and the final project (c.q. final paper) are excluded from this exemption possibility.

3. A maximum of 18 EC for a one one-year master programme and 36 EC for a one two-year master programme can be accumulated through granted exemption. The substituting courses (educational components) are not included.

---

**Article 3.8 Validity period for results**

1. The validity period of interim examinations passed and exemption from interim examinations is unlimited, unless otherwise specified in Section B.

2. The validity period of a partial examination is limited to the academic year in which it was sat or until the end of the unit of study concerned, as stipulated for the relevant unit of study in Section B.

---

**Article 3.9 Right of inspection and post-examination discussion**

1. For twenty working days after the announcement of the results of a written interim examination, the student can, on request, inspect his or her assessed work, the questions and assignments set in it, as well as the standards applied for marking.
   The place and time referred to in the previous clause will be announced at the time of the interim examination on VUnet or Canvas.

2. If a collective post-examination discussion has been organized, individual post-examination discussions will be held only if the student has attended the collective
discussion or if the student was unable to attend the collective discussion through no fault of his or her own.

3. Students who meet the requirements stipulated in paragraph 1 can submit a request for an individual post-examination discussion to the relevant examiner. The discussion shall take place at a time and location to be determined by the examiner.

Article 3.10 Fraud and plagiarism

1. The provisions of the Rules and Guidelines for the Examination Board apply in full.

2. Electronic detection software programmes may be used to detect plagiarism in texts. In submitting a text, the student implicitly consents to the text being saved in the database of the detection programme concerned.

4. Academic student counselling and study progress

Article 4.1 Administration of study progress and academic student counselling

1. The faculty board is responsible for the correct registration of the students’ study results. After the assessment of an educational component has been registered, every student has the right to inspect the result for that component and also has a list of the results achieved at his or her disposal in VUnet.

2. Enrolled students are eligible for academic student counselling. Academic student counselling is in any case provided by:
   a. The Student General Counselling Service
   b. Student psychologists
   c. Faculty academic advisors

Article 4.2 Adaptations for students with a disability

1. A student with a disability can, at the moment of submission to VUnet, or at a later instance, submit a request to qualify for special adaptations with regard to teaching, practical training and interim examinations. These adaptations will accommodate the student’s individual disability as much as possible, but may not alter the quality or degree of difficulty of a unit of study or an examination. In all cases, the student must fulfil the exit qualifications for the study programme.

2. The request referred to in the first paragraph must be accompanied by a statement from a doctor or psychologist. If possible, an estimate should be given of the potential impact on the student’s study progress. In case of a chronic disability a single (one time) request suffices.

3. Students who have been diagnosed with dyslexia must provide a statement from a BIG, NIP or NVO registered professional who is qualified to conduct psychological evaluation.

4. The faculty board, or on behalf of the faculty board, the educational director, or the programme director, decides on the adaptations concerning the teaching facilities and logistics. The Examination Board will rule on requests for adaptations with regard to examinations.

5. In the event of a positive decision in response to a request as referred to in paragraph 1, the student will make an appointment with the study adviser to discuss the details of the provisions.

6. A request for adaptations will be refused if it would place a disproportionate burden on the organization or the resources of the faculty or university were it upheld.

7. If the disability justifies an extension of the interim examination time, the Examination Board will grant permission testifying to this entitlement to an extension. If a disability justifies other measures to be taken, the Examination Board will advice the Faculty Board on the necessary measures to be taken.

8. The decision as referred to in paragraph 7, is valid for a maximum period of one year with the exception for the chronic diseases and disabilities.
5. Hardship clause

Article 5.1 Hardship clause
In instances not regulated by the Teaching and Examination Regulations or in the event of demonstrable extreme unreasonableness and unfairness, the faculty board responsible for the study programme will decide, unless the matter concerned is the responsibility of the Examinations Board.

Advice OLC; approval FGV (9.38 sub b)

Article 5.2. Publication
1. The faculty board will ensure the appropriate publication of these Regulations and any amendments to them.

WHW

2. The Teaching and Examination Regulations will be posted in the study guide or on VUnet.

WHW

Approved by authorized representative advisory body FGOV of the Faculty of Science on 3 September 2019.

Adopted by the Faculty Board on 30 August 2019.
### Article 6.1 Study programme information

| 1. | The programme Environment and Resource Management with the CROHO number 60045 is offered on a full-time basis. |
| 2. | The language of instruction is English. |

### Article 6.2 Teaching formats used and modes of assessment

1. The degree programme uses the following teaching formats:
   - Lectures;
   - Tutorials;
   - Games;

   The programme uses the teaching formats as specified in the study guide.

2. The degree programme uses the following modes of assessment:
   - Written examination;
   - Paper;
   - Assignments;
   - Report;
   - Presentation;
   - Simulation;
   - Pitch;
   - Paper review;
   - Peer review;
   - Summary;
   - Factsheets.

   The modes of assessment used per educational component are specified in the study guide.

### Article 7.1 Intake date(s)

1. The programme starts on September 1.

### Article 7.2 Admission requirements

1. Admission to the Master's programme is possible for an applicant who has obtained a Bachelor’s degree obtained at an institution of academic higher education. First degrees may be in both natural and social sciences; however, the previous study programme of students must show affinity to environmental problems. Criteria for admission are:
   - BSc degree from a well-regarded university;
   - GPA of 7/10 and higher or equivalent;
   - English language proficiency, including sufficient scores for each test component as specified in Article 4.a.3 of Application and Registration Regulation 2019-2020, chapter: Admission Requirements for Master’s programmes;
- Proven interest in environmental issues by courses taken and/or work experience, expressed in a motivation statement or curriculum vitae;
- Other information such as reference letters, course descriptions, students’ thesis or reports.

2. The Admissions Board will investigate whether the applicant meets the admission requirements.

When the programme commences, the candidate must have fully completed the Bachelor’s programme or pre-Master’s programme allowing admission to this Master’s programme.

3. In addition to the requirements referred to in the first paragraph, the Admissions Board can also assess requests for admission in terms of (at least two of) the following criteria:
   a. talent and motivation;
   b. level of relevant knowledge and understanding;
   c. proficiency in methods and techniques;
   d. academic attitude and critical thinking;
   e. proficiency in the language(s) of instruction.

Article 7.3 English language requirement for English-language Master's programmes or English-language specializations

1. In deviation from the language proficiency requirements as stated in the Application and registration regulation (RAI) an applicant should demonstrate that he or she has sufficient level of proficiency in English by meeting at least one of the following standards, no more than two (2) years before the start of the programme at the VU:
   - (academic) IELTS (>6.5) : 6.5
     - Minimum Sub-score Listening 6.
     - Minimum Sub-score Reading 6.0
     - Minimum Sub-score Writing 6.0
     - Minimum Sub-score Speaking 6.0
   - TOEFL paper based test (> 580): 580
   - TOEFL internet based test (> 92): 92-93
     - Minimum Sub-score Reading 18
     - Minimum Sub-score Listening 19
     - Minimum Sub-score Speaking 19
     - Minimum Sub-score Writing 23
   - The Cambridge Certificate of Proficiency in English (CPE) of the Cambridge Certificate of Advanced English (CAE), score: A, B, or C

Advice OLC; approval FGV (9.38 sub b)
Article 7.4 Pre-Master’s programme

1. a) Students with a Bachelor's degree of a university of applied science (HBO) in a field that corresponds to a sufficient extent with the subject area covered by the Master's programme can request admission to the pre-Master’s programme.

b) Students with a Bachelor's degree from an institution of academic higher education in a field that does not sufficiently corresponds with the subject area covered by the Master's programme can request admission to the pre-Master’s programme.

2. The pre-Master’s programme comprises 30 EC and is made up of the following 5 units of study:

<table>
<thead>
<tr>
<th>Coursecode</th>
<th>Course</th>
<th>EC</th>
</tr>
</thead>
<tbody>
<tr>
<td>E_IBA3_GCS</td>
<td>Grand Challenges for Sustainability</td>
<td>6 EC</td>
</tr>
<tr>
<td>AB_1229</td>
<td>Governance of Global Sustainability</td>
<td>6 EC</td>
</tr>
<tr>
<td>AB_1230</td>
<td>Sustainability and environmental change</td>
<td>6 EC</td>
</tr>
<tr>
<td>E_IBA3_SSCM</td>
<td>Sustainable Supply Chain Management</td>
<td>6 EC</td>
</tr>
<tr>
<td>AB_1231</td>
<td>Designing Solutions for Global Sustainability</td>
<td>6 EC</td>
</tr>
</tbody>
</table>

3. A successfully completed pre-Master’s programme serves as proof of admission to the specified Master's programme in the subsequent academic year.

4. A candidate can only participate in one pre-Master’s programme at the Vrije Universiteit.

8. Interim examinations and results

Article 8.1 Sequence of interim examinations

1. Students may participate in interim examinations [or practical exercises] of the components below only if they have passed the interim examination or examinations for the components mentioned hereinafter:
   - Research Project: after passing 18 EC in the ERM curriculum on February 15, as well as participation in the “Methods of Environmental and Resource Management” course and the “Research Workshops” course.

Article 8.2 Validity period for results

1. See Article 3.8 of the Teaching and Examination Regulations, section A. No further specific provisions.

2. A student may request the Examination Board to extend the validity of an exam. If the exam shows that a student’s knowledge is insufficient or outdated, or if the student’s skills and insights evaluated in the exam are demonstrably outdated, the Examination Board may impose a supplementary examination, impose a replacement examination or refuse to extend the period of validity.

3. In situations where a limited period of validity applies, the period of validity of examinations may be extended in the event of extenuating circumstances as stipulated in WHW Article 7.51, paragraph 2, with at least the period of allocated financial assistance specified in WHW Article 7.15, paragraph 1.

Article 8.3 Maximum Exemption(s)

A maximum of 18 EC of the curriculum can be accumulated through granted exemptions, based on previous results within other master’s programmes.
Article 8.4 Degree

Degree Students who have successfully completed their Master’s final Examination are awarded a Master of Science degree (MSc). The degree awarded is stated on the diploma. Track name will be stated on the diploma, if one has successfully completed at least 24 EC of the specific track; otherwise no track name will be stated on the diploma.

Legal provision, WHW
Section B2: Programme specific – content of programme

9. Programme objectives, specializations and exit qualifications

Article 9.1 Workload

1. The programme has a workload of 60 EC, including a compulsory units of study (48 EC) and specialization tracks (12 EC)

Article 9.2 Specializations

The programme has the following four specializations:

- Energy and Climate;
- Ecosystems Services and Biodiversity;
- Water and Society;
- Environmental Studies.

Article 9.3 Programme objective

The programme aims to deliver ERM graduates who are able to:

1. Assess the relevance of environmental issues in the context of both the natural and the social sciences;
2. Position environmental issues within the context of sustainable development;
3. Carry out in-depth research and analysis of environmental issues, starting from a set of concepts, theories and research methods based on either the natural or the social sciences, or from a twofold approach;
4. Independently set up an investigation into an environmental issue, to carry out this investigation, to report on the progress, and to formulate recommendations for further intervention and research;
5. Make a profound contribution at an academic level to the transition to a sustainable society, on the basis of acquired substantive and methodical knowledge, skills in the field of the integration of knowledge, and reporting and advisory skills;
6. Communicate both in a scientific and a non-scientific context about environmental issues and the way to deal with those issues, to assume scientifically sound points of view in that connection, and to argue those points of view;
7. Critically reflect on environmental issues, the contribution of environmental scientists in that respect, and the associated questions of complexity and uncertainty;
8. Assume the role of an environmental professional, acting as a researcher, an advisor and/or an operative for academic, government or private (profit and non-profit) organizations.

Article 9.4 Exit qualifications

At all events, a graduate of the ERM master programme will demonstrate knowledge and understanding of the complexity of environmental problems and solutions that is founded upon and extends or enhances in a multidisciplinary approach the level that is typically associated with Bachelor’s level, and that provides a basis or opportunity for originality in developing and/or applying ideas, often within a research context.

A graduate of the ERM will have:

1. knowledge and understanding of the relevant key concepts, theories and methodologies in the field of environment and resource management;
2. in-depth knowledge of the theories and methodologies of at least one area in the field of environment and resource management by specializing in (a) ecosystem services and
biodiversity (b) energy and climate; (c) water and society; and (d) environmental studies;

3. Understand the concept of sustainable development and the relationships between resource utilization, environmental pressure, production and consumption processes, societal processes and responses and is able to apply combinations of concepts and theories in a local, national or global context;

Applying Knowledge and Understanding: The ERM graduate an apply his/her knowledge, understanding and problem solving abilities in new or unfamiliar environments within broader or multidisciplinary context of sustainability related to environment and resource management; has the ability to integrate knowledge of multiple disciplines with the purpose of handling complexity of environmental problems and designing effective solutions.

4. Can integrate knowledge from various disciplines and understands the interrelationships in sustainable development processes;

5. Is able to understand, and to apply various methods for investigating and assessing environmental problems, for example economic analysis, scenario analysis, stakeholder analysis and spatial analysis and is aware of the value and the scope of these tools;

6. Can independently develop and execute scientific research of societal relevance.
   a. Is able to formulate a problem based on empirical data or literature study and design a scientific approach for researching and investigating the problem;
   b. Has the skills to apply methodologies and techniques when conducting independent research;
   c. Is able to independently acquire and compile relevant information on environmental problems by doing literature study, modelling and/or empirical data collection;
   d. Is able to analyze and interpret research data and to understand, translate and evaluate these data in the context needed;
   e. Can formulate recommendations and/or policy advise based on the conclusions of the research;

Making Judgements: The ERM graduate can formulate judgments based on incomplete or limited information, that include reflection on social and ethical responsibilities linked to the application of the students’ own knowledge and judgments.

7. Can recognize and acknowledge the different perspectives of relevant stakeholders on society and the environment, and is capable of taking these perspectives into account in a balanced manner;

8. Can reflect on core problems and solutions in the general domain of environment and resource management as well as the domain of the chosen specialization, and is able to form an opinion and to contribute to both scientific and practitioners’ discussions;

9. Can reflect on the trade-offs between economic, social and environmental issues that play a role in environment and resource management;
Communication: The ERM graduate can communicate conclusions, the knowledge and the rationale that underpin these, to an audience of specialists and non-specialists in a clear and unambiguous manner.

10. Can operate in diverse (e.g. multidisciplinary, international and/or intercultural) teams at a level that is at the frontier of research in Environment and Resource Management by active and constructive participation in discussions, debates, and meetings;

11. Can clearly communicate in English, both orally and in writing, while making appropriate use of visual material, including digital aids;
   a. To the scientific community, the conclusions from their research, and the knowledge and rationale underpinning these. Communication may be in the form of a research report, poster presentation, or oral presentation;
   b. To a general audience, the purpose of their research, their findings and the significance of these. Communication may be in the form of pitches, stories and debates.

Learning Skills: Has the learning skills to continue to study in a manner that may be largely self-directed and autonomous.

12. Has the knowledge of and competences for working in a multidisciplinary team, in particular the ability to compare and integrate insights and approaches from various environmental scientific disciplines;

13. Is able to reflect critically, but constructively on one’s own as well as peers’ papers, presentations and general functioning in groups, and is able to accept, consider and put to advantage the feedback of others;

14. Understands his/her personal stronger and weaker points, affinities, development potential and preferences in relation to the discipline chosen and the related professional potential;

15. Can familiarize oneself with new topics related to the field of study within a short timeframe.

2. If the student wishes to take a different educational component than listed, advance permission must be obtained in writing from the Examinations Board.

Article 10.4 Practical exercise
Not applicable
Article 10.5 Participation in practical training and tutorials

1. In the case of a practical training, the student must attend at least 100% of the practical sessions. Should the student attend less than 100%, he or she must repeat the practical training, or the Examinations Board may have one or more supplementary assignments issued.

2. In the case of a tutorial, the student must attend at least 100% of the practical sessions. Should the student attend less than 100%, he or she must repeat the practical training, or the Examinations Board may have one or more supplementary assignments issued.

11. Evaluation and transitional provisions

Article 11.1 Evaluation of the education

The education provided in this programme is evaluated in accordance with the (attached) evaluation plan. The faculty evaluation plan offers the framework.

Article 11.2 Transitional provisions

By way of departure from the Teaching and Examination Regulations currently in force, the following transitional provisions apply for students who started the programme under a previous set of Teaching and Examination Regulations:

**Specialisation courses**

The specialization course below has been replaced in academic year 2016-2017.

<table>
<thead>
<tr>
<th>New component</th>
<th>Former component</th>
</tr>
</thead>
<tbody>
<tr>
<td>AM_1192 Water Governance (6 EC)</td>
<td>AM_450188 Climate and Policy (6 EC)</td>
</tr>
<tr>
<td>AM_468023 Water Management (6 EC)</td>
<td>AM_468023 Water and Policy (6 EC)</td>
</tr>
<tr>
<td>AM_450188 Energy and Climate Governance</td>
<td>AM_450188 Energy and Climate</td>
</tr>
</tbody>
</table>

From 1 September 2016 on students obtain the new course, unless they passed the former course.

The specialization course below has been replaced in academic year 2015-2016.

<table>
<thead>
<tr>
<th>New component</th>
<th>Former component</th>
</tr>
</thead>
<tbody>
<tr>
<td>AM_1155 Energy Governance (6 EC)</td>
<td>AM_468019 Energy system transition (6 EC)</td>
</tr>
</tbody>
</table>

From 1 September 2015 on students obtain the new course, unless they passed the former course.

Advice and approval by the Programme Committee of Environment and Resource Management, on 25 June 2019.

Approved by the Faculty Joint Assembly, on 3 September 2019.

 Adopted by the board of the Faculty of Science, on 30 August 2019.
