Article 11.1 Evaluation of the education

Article 11.2 Transitional provisions

Appendix I  Overview of articles that must be included in the OER

Appendix II Overview of rights to prior consultation (advice) and rights to approve OLC and FGV

Appendix III Ordinances VU CvB and Binding Guidelines (richtlijn)
Section A: Faculty Section

1. General provisions

Article 1.1 Applicability of the Regulations

1. These Regulations apply to anyone enrolled for the programme, irrespective of the academic year in which the student was first enrolled for the programme. These Regulations apply to the teaching and examinations for the following Master’s degree programmes:

- Artificial Intelligence
- Bioinformatics and System Biology
- Biomedical Sciences
- Biomolecular Sciences
- Business Analytics
- Computer Science
- Drug Discovery and Safety
- Earth Sciences
- Ecology
- Environment and Resource Management
- Global Health (research)
- Health Sciences
- Hydrology
- Information Sciences
- Management, Policy Analysis and Entrepreneurship in the Health and Life Sciences
- Mathematics
- Medical Natural Sciences
- Neurosciences (research)
- Parallel and Distributed Computer Systems
- Science Business and Innovation
- Stochastics and Financial Mathematics

Advice OLC, approval FGV (9.38 ub b)

2. These Regulations enter into force with effect from 1 September 2019.

Advice OLC, approval FGV (9.38 ub b)

3. An amendment to the Teaching and Examination Regulations is only permitted to concern an academic year already in progress if this does not demonstrably damage the interests of students.

Advice OLC, approval FGV (9.38 sub b)

Article 1.2 Definitions

The following definitions are used in these Regulations (in alphabetical order):

a. academic year: the period beginning on 1 September and ending on 31 August of the following calendar year;

b. CvB: the Executive Board of Vrije Universiteit Amsterdam.

c. Double degree programme: joint programme in the context of cooperation between Vrije Universiteit Amsterdam and the educational institution within and outside the EU, as to gain a double university degree; of the VU and the educational institution concerned; though not being the same as a ‘joint degree programme’ according to the art. 7.3c WHW’;

d. EC (European Credit): an EC credit with a workload of 28 hours of study;

e. educational component: a unit of study of the programme within the meaning of the WHW;

f. examination: the final examination of the Master’s programme;

g. exemption: Exemption from an examination/ practical/ fieldwork based on an earlier successfully completed examination, or knowledge / skills of a similar content, level and scope gained outside higher education;

h. FGV: Faculty joint assembly – assembly of the faculty student council and faculty staff
i. interim examination: an assessment of the student’s knowledge, understanding and skills relating to a course component. The assessment is expressed in terms of a final mark. An interim examination may consist of one or more partial examinations. A resit always covers the same material as the original interim examination;

j. joint degree: a degree awarded by an institution together with one or more institutions in the Netherlands or abroad, after the student has completed a study programme (a degree programme, a major or a specific curriculum within a degree programme) for which the collaborating institutions are jointly responsible;

k. OLC: programme committee;
l. period: a part of a semester;
m. practical exercise: the participation in a practical training or other educational learning activity, aimed at acquiring certain (academic) skills. Examples of practical exercises are:
  - researching and writing a thesis or dissertation
  - carrying out a research assignment
  - taking part in fieldwork or an excursion
  - taking part in another educational learning activity aimed at acquiring specific skills, or
  - participating in and completing a work placement;

n. premaster student those who enroll in a premaster programme;
o. Programme: the totality and cohesion of the course components, teaching activities/methods, contact hours, testing and examination methods and recommended literature;
p. SAP/SLM: the student information system (Student Lifecycle Management);
q. semester: the first (September - January) or second half (February - August) of an academic year;
r. study guide: the guide for the study programme that provides further details of the courses, provisions and other information specific to that programme. The Study Guide is available electronically at:
https://www.vu.nl/studiegids
s. subject see ‘educational component’;
t. substituting course/educational component see under d (double degree programme). A course obtained at the educational institute, within the context of cooperation, that is mentioned in the diploma supplement as such; not being an ‘exemption’.

u. thesis/ internship work placement a component comprising research into the literature and/or contributing to scientific research, always resulting in a written report;
v. university: Vrije Universiteit Amsterdam;
w. WHW: the Dutch Higher Education and Research Act (Wet op het Hoger Onderwijs en Wetenschappelijk Onderzoek);
x. workload: the workload of the unit of study to which an interim examination applies, expressed in terms of credits = EC credits (ECTS = European Credit and Transfer Accumulation System). The workload for 1 year (1,680 hours) is 60 EC credits.

The other terms have the meanings ascribed to them by the WHW.

2. Study programme structure

Article 2.1 Structure of academic year and educational components

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th>Ordinance CvB, see appendix 3</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>The study programme will be offered in a year divided into two semesters.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>2.</td>
<td>Every semester consists of three consecutive periods of eight, eight and four weeks.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3.</td>
<td>An educational component comprises 6 EC or a multiple thereof.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
By way of exception to paragraph 3, Section B may stipulate that a unit of study comprises 3 EC or a multiple thereof. The Faculty Board requests permission from the Executive Board.

### Article 2.2 Refusal or termination of registration / (iudicium abeundi)

1. Pursuant to the provisions of Article 7.42a of the Act, the Faculty Board or the Examination Board may, in exceptional circumstances, request the Executive Board to terminate or refuse a student’s registration on a programme. This may be the case if the student’s conduct or statements demonstrate his or her unsuitability to work in the relevant field or discipline, or to take part in the programme’s practical training component.

2. If a student is suspected of being unsuitable as described in paragraph 1, the Examination Board or the Faculty Board will examine the case, and the student will be informed of this immediately. The Examination Board or the Faculty Board will only issue a recommendation after careful consideration of the interests involved and following a hearing with the student concerned.

### 3. Assessment and Examination

#### Article 3.1 Signing up for education and interim examinations

1. Every student must sign up to participate in the educational components of the programme, the examinations and resits. The procedure for signing up is described in an annex to the Student Charter.

2. Signing up may only take place in the designated periods.

3. If a student does not pass the examination and the resit of a component, he/she is obliged to take the whole component again. This rule does not apply to practical exercises and programmes that make use of component marks that retain their validity. For further regulations see Section B of the programme involved.

#### Article 3.2 Type of examination

1. At the student’s request, the Examination Board may permit a different form of interim examination than that stipulated in the course catalogue. If applicable, more detailed regulations on this are included in the Rules and Guidelines for the Examination Board.

2. In an educational component is no longer offered in the academic year following its termination, at least one opportunity will be provided to sit the interim examination(s) or parts thereof and a transitional arrangement will be included in the programme-specific section for the subsequent period.

#### Article 3.3 Oral interim examinations

1. An oral assessment is public unless the Examinations Board on request determines otherwise.

2. An oral examination will be taken in the presence of a second examiner.

#### Article 3.4 Determining and announcing results

1. The examiner determines the result of a written interim examination as soon as possible, but at the latest within fifteen working days. By way of departure from that stipulated in the first clause, the marking deadline for theses, internships / work placements and final assignments is no longer than twenty working days. The examiner will then immediately ensure that the marks are registered and also ensures that the student is immediately notified of the mark, taking due account of the applicable confidentiality standards.
2. a. The examiner determines the result (i.e. mark) of an oral examination as soon as possible, though within one working day, after the examination has finished and informs the student accordingly. The third clause of the first paragraph applies. 
b. The examiner determines the result of an interim examination no later than five working days before the next (interim) examination will be held.

3. In the case of alternative forms of oral or written examinations, the Examination Board determines in advance how and by what deadline the student will be informed of the results.

4. A student can submit a request for reassessment to the examiner. A request for reassessment does not affect the time period for lodging an appeal.

5. Together with the result of an examination, the student’s attention will also be drawn to their right to inspect the assessed work and have a post-examination discussion as stipulated in Art. 3.9, as well as his/her option to lodge a complaint before the Examination Board, and if necessary, to appeal to the Examinations Appeals Board (in Dutch: COBEX).

Article 3.5 Examination opportunities

1. a. Per academic year, two opportunities to take examinations per educational component will be offered.
b. The options for retaking practical components, work placements and theses are detailed in the relevant work placement manual, teaching regulations or graduation regulations.

2. The most recent mark will apply in the event of a resit. A retake is allowed for both passed and failed units of study.

3. The resit for a (partial) interim examination must not take place within ten working days of the announcement of the result of the (partial) examination being resat.

4. The Examination Board may allow a student an extra opportunity to sit an examination if that student:
   a) is lacking only those credits to qualify for his or her degree;
   b) has failed the examination during all the previously offered attempts, unless participation in an examination was not possible for compelling reasons.

   The extra opportunity can only be offered if it concerns a written examination, a paper or a take home examination. This provision excludes the practical assignments and the Master’s thesis. Requests for an additional examination opportunity must be submitted to the Examination Board no later than 15 July. If necessary, the method of examination may deviate from the provisions in the study guide.

Article 3.6 Marks

1. Marks are given on a scale from 1 to 10 with no more than one decimal point.

2. The final marks are given in whole or half points.

3. Final marks between 5 and 6 will be rounded off to whole marks: up to 5.5 rounded down; from 5.5 rounded up. To pass a course, a 6 or higher is required.

   In case the examination of a component consists of two or more parts, each of which are graded separately, the (weighted) mean of these marks (meaning: the final mark) must be rounded off using the following table:

<table>
<thead>
<tr>
<th>From</th>
<th>Up to</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>1,00</td>
<td>1,25</td>
<td>1</td>
</tr>
<tr>
<td>1,25</td>
<td>1,75</td>
<td>1,5</td>
</tr>
<tr>
<td>1,75</td>
<td>2,25</td>
<td>2,0</td>
</tr>
<tr>
<td>2,25</td>
<td>2,75</td>
<td>2,5</td>
</tr>
</tbody>
</table>
4. The Examination Board can allow to use symbols rather than numbers, such as: pass, fail, (un)satisfactory, good, VRS (exemption). In case a student does not take part in any (interim) examination, the examiner will register the mark ‘ns’ (c.q. no show).

Ordinance CvB, see appendix 3

Article 3.7 Exemption

1. At the written request of the student, the Examination Board may exempt the student from taking one or more examination components, if the student:
   a) has passed a course component of a university or higher professional education programme that is equivalent in terms of content and level;
   b) has demonstrated through his/her work and/or professional experience that he/she has sufficient knowledge and skills with regard to the relevant course component.

The Examination Board will make a decision within six weeks after receiving the request.

Advice OLC; approval FGV (7.13 r)

2. The Master’s thesis, the final work placement (c.q. internship) and the final project (c.q. final paper) are excluded from this exemption possibility.

Advice OLC; approval FGV (9.38 sub b)

3. A maximum of 18 EC for a one one-year master programme and 36 EC for a one two-year master programme can be accumulated through granted exemption. The substituting courses (educational components) are not included.

Advice OLC; approval FGV (art. 7.13 par. 2, under r WHW jo art. 9.38 par. b)

Article 3.8 Validity period for results

1. The validity period of interim examinations passed and exemption from interim examinations is unlimited, unless otherwise specified in Section B.

WHW

2. The validity period of a partial examination is limited to the academic year in which it was sat or until the end of the unit of study concerned, as stipulated for the relevant unit of study in Section B.

Advice OLC; approval FGV (9.38 sub b)

Article 3.9 Right of inspection and post-examination discussion

1. For twenty working days after the announcement of the results of a written interim examination, the student can, on request, inspect his or her assessed work, the questions and assignments set in it, as well as the standards applied for marking.

The place and time referred to in the previous clause will be announced at the time of the interim examination on VUnet or Canvas.

Advice OLC; approval FGV (7.13 p en q)

2. If a collective post-examination discussion has been organized, individual post-examination discussions will be held only if the student has attended the collective

Advice OLC; approval FGV (7.13 q)
3. Students who meet the requirements stipulated in paragraph 1 can submit a request for an individual post-examination discussion to the relevant examiner. The discussion shall take place at a time and location to be determined by the examiner.

### Article 3.10 Fraud and plagiarism

1. The provisions of the Rules and Guidelines for the Examination Board apply in full.

2. Electronic detection software programmes may be used to detect plagiarism in texts. In submitting a text, the student implicitly consents to the text being saved in the database of the detection programme concerned.

### 4. Academic student counselling and study progress

#### Article 4.1 Administration of study progress and academic student counselling

1. The faculty board is responsible for the correct registration of the students’ study results. After the assessment of an educational component has been registered, every student has the right to inspect the result for that component and also has a list of the results achieved at his or her disposal in VUnet.

2. Enrolled students are eligible for academic student counselling. Academic student counselling is in any case provided by:
   - The Student General Counselling Service
   - Student psychologists
   - Faculty academic advisors

#### Article 4.2 Adaptations for students with a disability

1. A student with a disability can, at the moment of submission to VUnet, or at a later instance, submit a request to qualify for special adaptations with regard to teaching, practical training and interim examinations. These adaptations will accommodate the student’s individual disability as much as possible, but may not alter the quality or degree of difficulty of a unit of study or an examination. In all cases, the student must fulfil the exit qualifications for the study programme.

2. The request referred to in the first paragraph must be accompanied by a statement from a doctor or psychologist. If possible, an estimate should be given of the potential impact on the student’s study progress. In case of a chronic disability a single (one time) request suffices.

3. Students who have been diagnosed with dyslexia must provide a statement from a BIG, NIP or NVO registered professional who is qualified to conduct psychological evaluation.

4. The faculty board, or on behalf of the faculty board, the educational director, or the programme director, decides on the adaptations concerning the teaching facilities and logistics. The Examination Board will rule on requests for adaptations with regard to examinations.

5. In the event of a positive decision in response to a request as referred to in paragraph 1, the student will make an appointment with the study adviser to discuss the details of the provisions.

6. A request for adaptations will be refused if it would place a disproportionate burden on the organization or the resources of the faculty or university were it upheld.

7. If the disability justifies an extension of the interim examination time, the Examination Board will grant permission testifying to this entitlement to an extension. If a disability justifies other measures to be taken, the Examination Board will advice the Faculty Board on the necessary measures to be taken.

8. The decision as referred to in paragraph 7, is valid for a maximum period of one year with the exception for the chronic diseases and disabilities.
5. Hardship clause

Article 5.1 Hardship clause
In instances not regulated by the Teaching and Examination Regulations or in the event of demonstrable extreme unreasonableness and unfairness, the faculty board responsible for the study programme will decide, unless the matter concerned is the responsibility of the Examinations Board.

Advice OLC; approval FGV (9.38 sub b)

Article 5.2. Publication

1. The faculty board will ensure the appropriate publication of these Regulations and any amendments to them.

WHW

2. The Teaching and Examination Regulations will be posted in the study guide or on VUnet.

WHW

Approved by authorized representative advisory body FGOV of the Faculty of Science on 3 September 2019.

Adopted by the Faculty Board on 30 August 2019.
Section B1: Programme specific – general provisions

6. General programme information and characteristics

Article 6.1 Study programme information

1. The programme Global Health CROHO number 66903 is offered on a full-time basis. (Approval OLC; approval FGV (7.13 i))

2. The language of instruction is English. (Approval OLC; approval FGV (9.38 sub b))

3. This programme offered in partnership with three partners of the Amsterdam Institute of Global Health and Development (AIGHD):
   - Athena FALW Vrije Universiteit Amsterdam;
   - Department of Global Health of the Academic Medical Centre (AMC), and;
   - the Center for Global Health and Inequality (CGHI) of the University of Amsterdam (UvA) and leads to a single degree.

Article 6.1a. Deviant size of educational component

By way of derogation from art. 2.1 par. 3, the units listed below have deviant size:

<table>
<thead>
<tr>
<th>Coursecode</th>
<th>Educational component</th>
<th>nr of EC</th>
</tr>
</thead>
<tbody>
<tr>
<td>AM_1047</td>
<td>Ethics in Global Health</td>
<td>3</td>

<tr>
<td>AM_1048</td>
<td>Writing Research Grant Proposal</td>
<td>3</td>
</tr>
<tr>
<td>AM_1046</td>
<td>Global Health Literature Review</td>
<td>9</td>
</tr>
<tr>
<td>AM_1158</td>
<td>Scientific Writing in English (AM_GH)</td>
<td>3</td>
</tr>
</tbody>
</table>

Approval OLC (art. 7.13 lid 2, under e), approval CvB

Article 6.2 Teaching formats used and modes of assessment

1. The programme uses the teaching formats as specified in the study guide. (Advice OLC; approval FGV (7.13 x))

2. The modes of assessment used per educational component are specified in the study guide. (Advice OLC; approval FGV (7.13 l))

Article 6.3 Academic student counselling

The programme offers the following counselling in addition to the student counselling mentioned in Section A: article is not applicable. (Advice OLC; approval FGV (7.13 u))

7. Further admission requirements

Article 7.1 Intake date(s)

1. The programme starts on September 1 (Advice OLC; approval FGV (9.38 ub b))

2. The educational programme has a limited programme capacity. The program accepts a maximum of 30 students per year. (Approval OLC (art. 7.13 par. 2))

Article 7.2 Admission requirements

1. Admission to the Master's programme is possible for an applicant who has obtained a Bachelor’s degree obtained at an institution of academic higher education, which demonstrates the following knowledge, understanding and skills:
   a. Knowledge
   b. Understanding
   c. Skills.

Partly legal provision & ordinance CvB, see appendix 3. Admission requirements excepted from
2. The Admissions Board will investigate whether the applicant meets the admission requirements.

3. In addition to the requirements referred to in the first paragraph, the Admissions Board can also assess requests for admission in terms of (at least two of) the following criteria:
   a. talent and motivation;
   b. proficiency in the language(s) of instruction.

4. A bachelor degree in one of the core disciplines of Global Health, containing at least 6 EC of epidemiology and/or statistics. Examples are Biology (Biologie), Biomedical Sciences (Medische Biologie), Health and Life (Gezondheid en Leven), Health Sciences (Gezondheidswetenschappen) and Medicine (Geneeskunde), Medical Anthropology (Medische Antropologie), Health Management (Gezondheitsmanagement), Pharmacology (Farmacologie), Health Economics (Gezondheidseconomie), Medical Sciences (medische natuurwetenschappen).

   These at least 6 credits should have been earned within the previous 3 academic years to be considered as still relevant to admission. Any longer durations may require further assessment by the admissions team prior to entry.

5. Average grades during the Bachelor should be 7.5 or higher in the Dutch grading system, or a foreign equivalent. Bachelor thesis or internship should at least be graded with an 8.0. Preferentially, the candidates completed their degree at a University College, did a double degree or an honours programme, or have other proof of having completed a bachelor’s programme geared towards excellence. Non-EU diplomas will be assessed by the VU desk for International relations. In case of the GPA being between 7 and 7.5, there is a possibility to compensate the GPA with extra-curricular activities.

6. A letter of motivation stating clearly why the applicant wants to enroll into the Master’s programme Global Health at the VU University Amsterdam. Attached should be a CV, indicating extra-curricular activities that underline the candidate’s societal engagement and broad interests, and two reference letters, of which at least one should be provided by the supervisor(s) of the candidate’s bachelor thesis or internship.

7. Score a sufficient mark on the entrance exam. This exam requires the candidate to answer questions based on a video-recorded lecture and accompanying literature. The exam is web-based, so it can be made from a distance if necessary.

8. Students who meet all the requirements and pass the entrance exam, will be invited for an interview with the director and/or coordinator of the Master’s programme in Global Health. The interview will be the final selection mechanism. During the interview the following aspects will be additionally assessed:
   - Clear motivation to study Global Health
   - Affinity with research
   - English language fluency with an emphasis on the generation of scientific arguments in English
- Ability to analyze complex societal problems and understand the added value of mixed method and interdisciplinary research

9. When the programme commences, the candidate must have fully completed the Bachelor’s programme or pre-Master’s programme allowing admission to this Master’s programme.

Article 7.4 Pre-Master’s programme

1. a) Students with a Bachelor's degree of a university of applied science (HBO) in a field that corresponds to a sufficient extent with the subject area covered by the Master's programme can request admission to the pre-Master’s programme.

b) Students with a Bachelor's degree from an institution of academic higher education in a field that does not sufficiently corresponds with the subject area covered by the Master's programme can request admission to the pre-Master’s programme.

2. The pre-Master’s programme comprises 30 EC and is made up of units of study out of the VU pre-Master’s programme of health sciences ("Pre-Masterprogramma Gezondheidswetenschappen"), depending on the specialization chosen by the student.

3. A successfully completed pre-Master’s programme serves as proof of admission to the specified Master's programme in the subsequent academic year.

4. A candidate can only participate in one pre-Master’s programme at the Vrije Universiteit.

8. Interim examinations and results

Article 8.1 Sequence of interim examinations

1. Students may participate in interim examinations [or practical exercises] of the components below only if they have passed the interim examination or examinations for the components mentioned hereinafter:
   - Students need to have passed the exams of 24 EC of the compulsory courses of year 1 and the practical exercises before they can start their Research Project Global Health; and the courses Addressing the Burden of Disease and Advanced Methodology ILA in Global Health of year 2 (12 EC) before they can start the Global Health Master thesis.
   - A course can only be passed when the scores on all parts of the examinations are sufficient (6.0 or higher).

Article 8.2 Validity period for results

1. See Article 3.8 of the Teaching and Examination Regulations, section A. No further specific provisions.

2. A student may request the Examination Board to extend the validity of an exam. If the exam shows that a student’s knowledge is insufficient or outdated, or if the student’s skills and insights evaluated in the exam are demonstrably outdated, the Examination Board may impose a supplementary examination, impose a replacement examination or refuse to extend the period of validity.

3. In situations where a limited period of validity applies, the period of validity of examinations may be extended in the event of extenuating circumstances as stipulated in WHW Article 7.51, paragraph 2, with at least the period of allocated financial assistance specified in WHW Article 7.15, paragraph 1.
### Article 8.3 Maximum Exemption(s)

A maximum of 36 EC of the curriculum can be accumulated through granted exemptions, based on previous results within other master’s programmes. Exemptions are granted by the Examination Board.

| Advice OLC, approval FGV (7.13 par. 2, under r jo art. 9.38 sub b) |

### Article 8.4 Degree

Degree Students who have successfully completed their Master’s final Examination are awarded a Master of Science degree (MSc). The degree awarded is stated on the diploma.

| Legal provision, WHW |
Section B2: Programme specific – content of programme

9. Programme objectives, specializations and exit qualifications

Article 9.1 Workload
1. The programme has a workload of 120 EC.

Advice OLC; (7.13 a)

Article 9.2 Specializations
The programme has no specializations.

Advice OLC; (7.13 a)

Article 9.3 Programme objective
The programme aims that after graduation the student possesses academic knowledge, attitude and skills for the integral analysis of complex (inter) national health problems as well as for the formulation, implementation and evaluation of integral intervention strategies through inter- and transdisciplinary research and taking a system’s perspective.

Advice OLC; (7.13 a)

Article 9.4 Exit qualifications
1. At all events, a graduate of the study programme will have:

A. The student has knowledge of relevant theoretical frameworks from social, behavioral, and beta sciences. S/he has relevant knowledge of the latest developments within these disciplines in as far as they are connected to Global Health. In particular, the student acquires:
   a) Insight in the most important concepts and theories in the field of Global Health and in relevant related disciplines like health sciences, (bio)medical sciences, management and policy sciences, economics and social sciences including medical anthropology.
   b) Robust knowledge of and insight in system’s thinking and the related models, theories, and related concepts (participation, multi-dimensionality, constructivism, complex adaptive systems, non-linear frameworks)
   c) Insight in the relevance and function of scientific research in the field of Global Health in society

B. The student has acquired the knowledge and insight that are essential for conducting scientific research in the field of Global Health. This includes designing, implementing, and evaluating both health interventions and health care systems to address Global Health challenges:
   d) Knowledge on research methodologies in the different sub-disciplines of Global Health and their underlying epistemological theories.
   e) Knowledge of relevant quantitative and qualitative research methodologies and research techniques, their inherent advantages and disadvantages and the way they fit in with research methodologies
   f) Insight in the way data are gathered, processed, analyzed and reported
   g) Knowledge of and insight in methods to ensure the quality of scientific research (validity, bias, sampling, etcetera).

C. Knowledge in and insight of transdisciplinary research in relation to Global Health issues:
   a) The placing of the transdisciplinary research approach with respect to mono-, multi- and interdisciplinary research and insight in the differences and relevance
   b) Knowledge of the status quo concerning theory (epistemology, methodology, inclusive quality criteria) and insight in the most important research questions within transdisciplinary research

Approval OLC; (7.13 c)
c) Central concepts of transdisciplinary research (active participation of relevant societal actors, collective learning process, systems thinking and so forth)
d) Insight in relevant concepts and theories for effective communication and cooperation in the framework of transdisciplinary research
e) Insight in the steps to be taken in transdisciplinary research and related methodological aspects

D. After graduation the student has an attitude that fits with effectively conducting transdisciplinary research in the field of Global Health:
a) An open, respectful attitude, a reflective, inquisitive nature, critical thinking with regard to ones thinking and handling, cultural sensitivity, and to be aware of the dynamics in group processes and the associated visions, interests and power positions, and to be aware of the broad variation of influences and the willingness to take this into account in research.
b) The student looks for solutions and takes responsibility for personal development and personal actions.

E. The student has the following general academic capabilities:
a) Ability to work in projects
b) The student is able to explain fundamental underlying assumption and theoretical schools of his/her focus in global health to scientists and non-scientists alike, incorporating different lines of reasoning, and with the ability to analyze and defend these different points of view.
c) The student is able to report findings both in presentations and in reports, for scientists and non-scientists alike.
d) The student is able to define personal learning goals and evaluate their own functioning by both self-reflection and consultation with others.
e) The student has the ability to independently acquire new knowledge and capabilities in future situations (life-long learning)

F. The student has developed the following academic research capabilities:
a) The student can independently acquire information on Global Health challenges in different relevant disciplines by means of studying literature and conducting empirical research.
b) The student can analyze acquired data in an integral and scientifically critical fashion
c) The student contributes to scientific discussions on planning research and analyzing results

G. The student has the skills for conducting transdisciplinary research with respect to:
a) Setting up a research plan for transdisciplinary research
b) Selecting, combining and carrying out methods and techniques for transdisciplinary research and analyzing obtained data
c) Stimulating group processes and learning processes for transdisciplinary research
d) Communicating and co-operating with researchers from different scientific disciplines, as well as professionals from businesses and health, and with policy makers and citizens from different cultural backgrounds
e) Integrating knowledge and insight from different alpha-, beta- and gamma disciplines, as well as from relevant societal knowledge
f) Monitoring and evaluating the quality and effectiveness of transdisciplinary research

H. The student is able to formulate strategies that contribute to solving Global Health issues (on the basis of results from inter- and transdisciplinary research), and to assess them in terms of appropriateness and societal relevance, and thereby continually taking into account ethical and normative aspects.
1. The student has skills for monitoring and evaluating the effectiveness of interventions and system innovations and is able to conduct comparative analyses (by means of transdisciplinary research).

10. Curriculum structure

Article 10.1 Composition of the programme
1. The programme comprises at least a package of compulsory components and an individual Master’s thesis or academic internship. Ordinance CvB, see appendix 3
2. Additionally the programme can offer:
   • Practical exercises;
   • Electives. Advice OLC; (7.13 a)
3. Educational components are categorized as specialized (400), research oriented (500) and highly specialized (600) level. Ordinance CvB, see appendix 3

Article 10.2 Compulsory educational components
A detailed description per educational component can be found in the Study Guide.

<table>

</tr>
</tbody>
</table>

2. If the student wishes to take a different educational component than listed, advance permission must be obtained in writing from the Examinations Board. Advice OLC; (7.13 a)

Article 10.4 Practical exercise
The following components can be considered as practical exercises: article is not applicable. Approval OLC (7.13 d)
Article 10.5 Participation in practical training and tutorials

1. In the case of a compulsory practical training, the student must attend 100% of the practical sessions. Should the student attend less than 100%, he/she must repeat the practical training, or the Examinations Board may have one or more supplementary assignments issued.

2. In the case of compulsory tutorials with assignments, the student must attend at least 100% of the tutorials. Should the student attend less than 100%, he/she must repeat the study group, or the Examinations Board may have one or more supplementary assignments issued.

3. In exceptional circumstances, the Examinations Board may, at the request of the student, permit an exemption from this requirement if, in the opinion of the Board, the assessment of the intended skills is also possible with a lesser percentage of participation, with or without the imposition of supplementary requirements.

Approval OLC (7.13 d)

Article 11.1 Evaluation of the education
The education provided in this programme is evaluated in accordance with the (attached) evaluation plan. The faculty evaluation plan offers the framework.

Approval OLC (7.13 a1)

Article 11.2 Transitional provisions

1. By way of departure from the Teaching and Examination Regulations currently in force, the following transitional provisions apply for students who started the programme under a previous set of Teaching and Examination Regulations: for students who started their programme before the academic year 2019-2020, the TER applicable in the year that they started will remain applicable for three consecutive years, counting from and including the year that the programme was started.

The following courses are expired:

Advice OLC (7.13 a)

Advice and approval by the Programme Committee of M Global Health, on 5 May 2019.

Approved by the Faculty Joint Assembly, on 3 September 2019.

Adopted by the board of the Faculty of Science, on 30 August 2019.
### Appendix I  Overview of articles that must be included in the OER

*Based on Section 7.13, paragraph 2, of the WHW and other Sections of the Act.*

Section B1: Programme specific – general provisions

<table>
<thead>
<tr>
<th>6. General programme information and characteristics</th>
<th>7.13 paragraph 2 sub i, r</th>
